EARTH PRIME The Ultimate Apocalyptic Planet

Written by James M. Ward and Stephen A. Lee

From the creator of the first science fiction RPG and the first Post Apocalyptic RPG comes the latest in an Apocalyptic Future. Welcome to the Lost 77 Worlds RPG. This sourcebook expands the basic rules and introduces Advanced Technology, Future Societies, Alien Equipment, and a Campaign setting on a future Blasted Earth.

Earth Prime is the ultimate apocalyptic planet with mutants and strange new civilizations. The ruins of ancient cities lay quiet and deadly. That which survives on the planet avoids the ancient ruins for fear of artificial human and alien entities. Today the planet has exotic mutants both fauna and flora as a result of ancient bio-genetic weapons, plagues, and alien biological life designed to xenoform the planet.
